

A white US Ecology truck is parked in front of an industrial facility with several tall, white cylindrical tanks. The truck has the US Ecology logo on its side and the number 295. The text "Unequaled service. Solutions you can trust." is overlaid on the image in white, with a blue and green circular graphic behind it.

Unequaled service.
Solutions you can trust.

Field and Industrial Services

With more than **60 years** of environmental service experience, **US Ecology** offers **expert insight** into your needs. US Ecology has built its reputation as a **leader** and **innovator** in helping **solve** your toughest **environmental problems.**

When you place your trust in us, you can be confident that we'll deliver an expert solution that ensures the highest level of safety and regulatory compliance. We provide reliable, responsive and cost-effective solutions designed to meet your specific waste needs.

Field Services

US Ecology offers industry-leading environmental solutions for customers in the manufacturing, retail, education, government and engineering sectors, leveraging our nationwide network of service centers and facilities. Our highly trained experts are supported by best-in-class technology as they provide turnkey solutions, managing all your service, compliance and disposal needs. We offer a wide variety of field services, including transportation, to manage your waste from point of origin to final disposition.

Remediation:

We offer full-service remediation, decommissioning and construction, and integrated project management backed by a nationwide network of disposal facilities.

Total Waste Management:

Our integrated approach works to manage all your waste services, ensuring compliance through a cost-effective, performance-driven program.

Retail Services:

Trust our experts to help you meet complex regulatory requirements by providing on-site pickup, compliance assistance, DEA services, RCRA and non-hazardous waste treatment and disposal services.

Lab Pack and Technical Services:

Let our team provide management, packaging and disposal of outdated and unknown chemicals for education and industrial customers.

LTL Services:

To support small quantity waste-management needs, we offer preparation of waste profiles and manifest paperwork, plus turnkey transportation and disposal services.

Household Hazardous Waste:

We're also proud to manage hazardous waste collection events for residents and businesses in your community.

Industrial Services

US Ecology is a leading provider of industrial services to customers across the utility, automotive, steel and manufacturing sectors, assisting them with their most challenging environmental problems. With over 60 years of experience and a nationwide network of waste treatment and disposal facilities, we offer best-in-class, turnkey solutions to safely meet your needs. Our team of dedicated and highly trained professionals brings the latest technology and state-of-the-art equipment to every job.

Industrial Cleaning and Maintenance:

Our water blasting, dry/wet vacuuming and transportation services help customers lower cost and minimize liability. We offer robotic and steam cleaning capabilities, sound reduction vacuum units, plant outage and turn-around service along with boiler and gun range cleaning.

We provide drum and bulk transportation for solid and liquid waste with an extensive fleet of vacuum and bulk tankers, frac tanks, roll-off/vacuum containers and box trucks. Our experts can handle all levels and types of cleaning needs.

Emergency Response:

When you need immediate emergency response, our nationwide team is trained and certified to handle rail, waterway and land spills. Our 24/7/365 services feature boom deployment, groundwater recovery, transportation and disposal capabilities. Call 800-839-3975 for immediate support.

Marine and Terminal Services:

We offer solutions for industrial cleaning, civil construction and marine services for large petroleum and chemical terminals. Specialized equipment is utilized on daily terminal maintenance, large tank cleanouts, berm and liner installations, vessel mooring, and emergency spill response services.
