

Gun Range Cleaning Services

Safe, reliable and convenient gun range cleaning services that keep you compliant with all EPA and OSHA guidelines.

US Ecology's Gun Range Cleaning Services offer customers safe, reliable, and cost-effective removal and disposal of lead, lead dust, brass and other hazardous wastes. US Ecology is the industry's leading provider of environmental services—with over 60 years of experience, we can help you with all of your environmental management needs.

US Ecology is uniquely positioned to serve the gun range cleaning needs of private clubs, major retailers, military installations, government agencies and police forces throughout North America. Our nationwide treatment and disposal facilities, as well as our network of metal recyclers, enable us to offer services you can rely on.

Our experienced team focuses on safety, regulatory compliance and liability management. Our technicians and project managers are properly trained to handle lead and control lead dust during cleaning with the use of the appropriate Personal Protective Equipment (PPE) and safety equipment. US Ecology handles it all, so you protect your employees and avoid environmental violations and fines.
