

# Retail Services

A woman with long brown hair, wearing a pink short-sleeved shirt, is pushing a red metal shopping cart through a grocery store aisle. She is looking to her right. The aisle is filled with shelves of various products, including packaged goods and fresh produce. In the background, another woman is also pushing a shopping cart, and the store's bright lighting creates a clear, busy atmosphere.

Premier Retail Services helping local, regional and national retailers cost-effectively comply with complex regulatory requirements, manage waste disposal needs and protect the environment.

As an industry pioneer in providing waste management and compliance solutions to the retail sector, US Ecology is ideally positioned to design and manage a program that meets your needs. US Ecology's Retail Services team has over 10 years of experience supporting retailers of all types and sizes. Our experts understand the regulatory challenges that retailers face and the importance of building cost-effective, streamlined compliance programs. We offer turnkey, technology-driven services that leverage data to maintain compliance and drive pollution prevention and waste minimization.

## Retail Services

Our highly trained professionals offer a variety of services, including:

- RCRA, pharmaceutical, DOT and state regulated waste streams
- Scheduled routine services and on-demand/on-call services
- Segregated waste program and compliance kits
- Pharmaceutical waste services, including removal of DEA controlled substances
- Waste sortation, packaging and transportation
- On-site waste pickup by US Ecology's transportation fleet
- Electronic data access and reporting tools
- Product destruction capabilities

In addition to these services, US Ecology offers retailers 24/7/365 Emergency Response services in case of natural disasters, power outages and other catastrophic events. These services are designed to help retailers safely and quickly recover from disasters and to minimize store closure time.

With over 60 years of environmental services experience, industry-leading services for retailers, a nationwide network of waste treatment, recycling and disposal facilities, and best-in-class customer service, our team is ready to support your retail waste needs.
