Derek Wieske
City of Vernon
4305 Santa Fe Ave.
Vernon, CA 90058

Dear Mr. Wieske:

Industrial Wastewater Discharge Permit No. 21961

US Ecology Vernon, Inc.
5375 S Boyle Avenue
Vernon, CA 90058

Enclosed are approved plans and copies of the approved Industrial Wastewater Discharge Permit for the subject company. This permit application was submitted in accordance with Ordinance requirements. The approved permit consists of the approved permit application and plans, this approval letter, the Industrial Wastewater Discharge Permit Requirement List and the Industrial Wastewater Discharge Permit Data Sheet. Please review these for compliance with your requirements, and retain the copies you require for your files. The applicant's copy of the approved plans and Industrial Wastewater Discharge Permit, along with a copy of this letter and requirement list should be forwarded to the applicant. A copy of this letter is forwarded to the applicant as notification of the Districts' permit requirements, which are in force from the current date. If any additional permit requirements are issued to the applicant by your agency, copies should be forwarded to the Districts for our records.

Approval of the permit is subject to compliance with all applicable Ordinance requirements, upon any corrections shown in red on the drawings, and upon the items indicated on the attached requirement list. Failure to comply with all items on the requirement list, including the deadline for submittal of approvable plans, invalidates this approval and issuance. Invalidation of this permit will result in the permittee being deemed to be operating without a valid permit and subject to immediate discontinuance of sewer services for industrial operations.

If you have any questions concerning these requirements, please call Alicia Barrera of the Districts' Industrial Waste Section at extension 2918.

Very truly yours,

Sue Zhu
Senior Engineer
