

Single source for

# Total Waste Management

There is a new and better way to manage waste. With over 65 years of experience, a nationwide footprint of waste facilities, and a track record of supporting the largest industrial companies, US Ecology is the Total Waste Management leader.

## Problem: Multiple Vendors

Using more than one vendor to manage your waste leads to more expenses, complexity and inefficiency.

More Expenses

Less Visibility

Multiple Points of Contact

## Solution: Single Source

Your single point of contact across all facilities for all waste streams, providing responsive, reliable service.

Solid Waste

Recyclable Waste

Hazardous Waste

Tens of Millions  
of Dollars Saved

US ecology

Thousands  
of Supported  
Facilities
