REGION 5

RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) PERMIT

**Facility Name and Location:** Envirite of Illinois, Inc. (d/b/a EQ Illinois, Inc.)  
16435 South Center Avenue  
Harvey, IL 60426

**Owner(s):** Envirite of Illinois, Inc.  
42 Longwater Drive  
Norwell, MA 02061

**Operator(s):** Envirite of Illinois, Inc. (d/B/a EQ Illinois, Inc.)  
16435 South Center Avenue  
Harvey, IL 60426

**EPA Identification Number:** ILD 000 666 206

**Effective Date:** 30 Days from Issuance Date of the Final Permit

**Expiration Date:** 10 Years from the Effective Date of the Final Permit

**Authorized Activities:**

The U.S. Environmental Protection Agency hereby issues a Resource Conservation and Recovery Act (RCRA) permit (hereinafter referred to as the "permit") to Envirite of Illinois, Inc., d/b/a EQ Illinois, Inc. (hereinafter referred to as the "Permittee" or addressed in the second person as "you") in connection with the hazardous waste storage activities at 16435 South Center Avenue, Harvey, Illinois.

This permit is issued under the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, and the Hazardous and Solid Waste Amendments (HSWA) of 1984 (42 USC § 6901 *et seq.*) (collectively referred to as RCRA) and EPA's regulations promulgated thereunder (codified, and to be codified, in Title 40 of the Code of Federal Regulations (40 CFR)).

Specifically, this permit addresses: (1) certain restrictions and prohibitions on land disposal of hazardous wastes in accordance with 40 CFR Part 268; (2) other Federal RCRA regulations for which the State has not yet been authorized; (3) air emissions standards for tanks, containers, in accordance with 40 CFR § 264.1080 *et seq.* (40 CFR Part 264, Subpart CC).

This permit contains the federal RCRA permit conditions. The Permittee also has a state RCRA permit which contains conditions issued by the State of Illinois's RCRA program authorized under 40 CFR Part 271. Any hazardous waste activity which requires a RCRA permit and is not included in this permit or the state RCRA permit is prohibited.

**Permit Approval:**

On January 31, 1986, the State of Illinois received final authorization pursuant to Section 3006 of RCRA, 42 USC § 6926 and 40 CFR Part 271, to administer the pre-HSWA RCRA hazardous waste program. The State of Illinois has also received final authorization to administer certain additional RCRA requirements on several occasions since then. However, because the EPA has not yet authorized the State of Illinois to administer certain regulations, including the air emission standards for containers and tanks handling hazardous wastes (see 40 CFR § 264.1080 *et seq.*, also known as "Subpart CC"), recent additions to the regulations covering the land disposal restrictions (40 CFR Part 268), and changes to other sections of applicable regulations, the EPA Region 5 is issuing the RCRA permit requirements for operations at the Permittee's facility which falls under these regulations.

You must comply with all terms and conditions contained in this permit. This permit consists of all the conditions contained herein, all documents attached hereto, and all documents listed or cross-referenced in these documents, approved submittals (including plans, schedules and other documents), and the applicable regulations contained in 40 CFR Parts 124, 260, 261, 262, 264, 268, 270, and applicable provisions of RCRA. You must also comply with the State permit.

This permit is based on the assumptions that: (1) the information submitted in the Permittee's RCRA permit application dated October 01, 2014, and all other modifications to that application (hereinafter, referred to as the "Application") are complete and accurate, and (2) the facility is configured, operated, and maintained as specified in the permit, and as described in the permit application.

Any inaccuracies in the information submitted by or on behalf of the Permittee constitute grounds for the EPA to terminate, revoke and reissue, or modify this permit in accordance with 40 CFR §§ 270.41, 270.42 and 270.43; and for enforcement action. You must promptly inform the EPA of any deviation from, or changes in, the information in the Application that might affect your ability to comply with the applicable regulations or conditions of this permit.

**Opportunity to Appeal:**

Petitions for review must be submitted within thirty (30) days after the EPA serves notice of the final permit decision. Any person who filed comments on the draft permit or participated in the public hearing may petition the Environmental Appeals Board to review any condition of the permit decision. Any person who failed to file comments or failed to participate in the public hearing on the draft permit may file a petition for review only to the extent of the changes from the draft to the final permit decision. The procedures for permit appeals are found in 40 CFR § 124.19.

**Effective Date:**

This permit is effective as of **(30 Days from Issuance Date of the Final Permit)** and will remain in effect until **(10 Years from the Effective Date of the Final Permit)**, unless revoked and reissued under 40 CFR § 270.41, terminated under 40 CFR § 270.43, or continued in accordance with 40 CFR § 270.51(a).
